

**Prof. Dr. Diana Elizabeth Waturangi**

School of Bioscience, Technology and Innovations, Atma Jaya Catholic University of Indonesia, Indonesia

Diana Elizabeth Waturangi, Ph.D., is a professor in microbiology, with research interest emphasis in food microbiology, at Atma Jaya Catholic University in Jakarta, Indonesia. She received her Doctoral degree from IPB University through Sandwich Program at Institut für Tierzucht, Bundesforschungsanstalt für Landwirtschaft (FAL), Germany. She became a postdoctoral fellow at the University of Texas Houston Medical Center, USA. She was appointed as the Dean of Biotechnology Faculty at Atma Jaya Catholic University (2010-2017). She was also appointed as the American Society for Microbiology (ASM) country ambassador for Indonesia in 2016-2021 and from 2021 acting as the ASM International council. She is one of the expert panels of The Indonesian Food and Drug Authority (BPOM-RI) and country ambassador for General Harmonization Initiatives for Food Safety Regulation. She also member of Academy of Food and Nutrition Sciences-Indonesian Academy of Sciences.

She published her research on various reputable international journals and had written books and book chapters on biofilm and bacteriophage. Her research emphasized the application of antibiofilm and bacteriophage to control food spoilage bacteria, food-borne, aquaculture pathogens and their biofilms. She awarded awards and research grants from Bill and Melinda Gates Foundation; International Society for Infectious Diseases; International Foundation for Science; Global Bacteria Forum; and World Society Pediatric for Infectious Diseases and just received science and technology award from Indonesia Toray Science Foundation 2024.
