

Mr. Robin Philp

Academia & Collaborations Manager, Southeast Asia, Agilent Technologies, Malaysia

With a background in biochemistry Robin worked at the Imperial Cancer Research Fund and the Ludwig Institute for Cancer Research in London in the area of protein biochemistry before moving to Oxford GlycoSciences. Following that he moved to Singapore where he ran the department of Proteomics at A*STAR's Bioprocessing Technology Institute with a focus on characterization of recombinant glyco-proteins. In 2008 he joined Agilent Technologies in Singapore as a specialist in mass spectrometry and now acts as the Academia & Collaborations Manager for Singapore, Malaysia and Thailand based in Kuala Lumpur
